PRODUITS OU MACHINES

SWABBING ROBOT (Valve block mounted & Suspended)

we have been developing a unique automatic lubrication solution for blank molds and the neck ring on IS machines.

We are now at the 5th version of our robot with a new operator interface. Our integration is adaptable to all forming machines.

Better swabbing performance with Novaxion Robot:

Novaxion Swabbing Robot swabs an entire section in a single cycle (without gob reject – swabbing on the fly). Cycle time for a full 10-section machine lasts less than 2 minutes.

Very high lubrication precision for Novaxion Robots:

Novaxion uses a simple, effective, inexpensive and easy-to-maintain spraying system.

Novaxion Swabbing Robot's spraying tool permits targeted application across the entire upper portion of the mould, a large range of lubrication bracket and tooling is available.

GATHERER ROBOT

Ball-gatherer robots for continuous furnaces (4 axes)

Ball-gatherer robots for day-tanks and pot-furnaces (6 axes) with special device to follow the glass level.

Automatic shears to cut melted glass.

HISTOIRE DE L'ENTREPRISE

Since the acquisition of Novaxion in the Rondot Group, the worldwide presence spread is even larger.

Since 2004, hundreds of robots sold by NOVAXION are running all over the world, in different glassworks, for the great satisfaction of the customers. Novaxion in addition to its presence in the glass field, is assisted by the after-sale service agencies of its partner, the world leader FANUC Robotic.

Partnership with Fanuc Robotics, leader in robotics factory automation.

FANUC is the leading global manufacturer of factory automation with more than 55 years of experience, more than 17,500,000 FANUC products installed worldwide, and satisfied customers in every corner of the globe.

The partnership of Novaxion with FANUC Robotics allows to benefit of a 2-year warranty with spare parts and after-sale service in most of the countries worldwide. More than 210 subsidiaries worldwide with a 24/7 service and a comprehensive worldwide FANUC network provide sales, support, and customer service.

Anywhere a robot is sold, an after-sale service agency is ready to help the customer in case of necessity.

Company Profile of **NOVAXION**

A service of glasssglobal.com, an affiliate of glasssglobal group.
