PRODUITS OU MACHINES

Strong partners for strong benefits

The members of the Glass-Alliance are connected primarily by one thing: cutting-edge technology in glass production. This level of performance has seen all four suppliers become long-term leading suppliers in the production of glass and true experts in their fields.

You can now benefit from this knowledge and the many years of experience all from a single source.

Know-how

The Glass-Alliance delivers the core know-how for a glass plant and is made up of market-leading manufacturers in their relevant fields. All four brand companies are financially stable, have enjoyed long-term success on the market and supply you with the highest level of innovation, service and quality standards directly developed in-house.

Optimum complete solution

The direct communication and experience within the Glass-Alliance enables the project to be viewed from different perspectives and also as a complete package. In this way, we can guarantee the optimum overall efficiency of your glass plant without any interface or compatibility problems.

Confidence

The Container Glass Alliance assures you of the reliable integration of the equipment provided by all four partners. This guarantees a smooth and efficient execution.

Independence

The Glass-Alliance is not involved itself in glass manufacture and is able to offer you, therefore, neutral and independent expert advice.

Innovation

The strong developments and constant innovations achieved by the Glass-Alliance members are the basis for the modern technology and efficiency provided.

HISTOIRE DE L'ENTREPRISE

Glass-Alliance - Leaders in Glass Plant Solutions

The Glass-Alliance stands for the highest international quality and solutions that shape the market.

Four leading suppliers in the hollow glass manufacturing industry – Zippe, Horn Glass, Emhart Glass and MSK – have formed the Container Glass Alliance. The Glass Alliance provides targeted know-how, from experts in their fields, for the manufacture of container glass or individual projects and production steps in your glass plant.

The cooperation, as well as providing a quicker and more direct flow of information between the four experts, leads to an enormous competitive edge and advantages for your company.

The path to your glass plant

The Glass-Alliance guides you from the mixing and cullet processing stage from Zippe, the planning and production of glass-melting furnaces from Horn Glass, hot-end and inspection machines from Emhart Glass, right through to the cold-end area of the lehrs and packaging from MSK. Every Alliance member is available individually for you, providing special knowledge in their relevant areas.

We do not think of ourselves as merely equipment and plant suppliers but also as suppliers of solutions that you can use for your turnkey project or also for your individual production areas.
