### Glass Processing

Cutting  
Edge finishing  
Bevelling  
Drilling  
Sandblasting  
Silk-screen printing  
Tempering  
UV method glass gluing  
Glass lamination

## HISTOIRE DE L'ENTREPRISE

We are a leading distributor and processor of flat glass in Poland.

We work within the country as well as abroad. We have experience and history. Thanks to that, customers and partners see us as a strong and stable brand. We are constantly developing technologically and logically. We take great care of people and their competence; we invest in them with special commitment.

### **Our experience dates back to 1997.**

Initially only few people were hired and the company's head office was located in the back of a residential building. What did we do then? Simple processing and wholesale trade on a small scale.

However, in connection with intensive development of the company on both wholesale and production levels, measures were undertaken to ensure optimal work conditions in next steps.

In 2008 a new object was built.

Warehouse has been equipped with cranes and innovative glass storage system, whereas production site with modern machinery: automatic lines for glass cutting, automatic grinding lines, glass printing lines and a tempering line.

Continuous development and extensive logistics facilities (efficiently organized supply chain) allow us to introduce new market trends and keep pace with evolving needs of the market.
