

The company

Simtech, a company founded in 1992, is made of a rigorous and professional team focusing on highly skilled design & manufacturing of specific products out of coated fabrics & rubber materials mainly used in glass, bottling, defence, motorsport & other industries, including laminating solutions, flexible tanks and fuel cells, bottle & container handling solutions, rubber edging, etc.

Simtech is a high-performance, global-minded company that exports more than 90% of its production worldwide.

Our solutions

Simtech designs, manufactures & supplies:

- **flexgrip**[®] - handling solutions (hollow glass handling)
For the **handling of hollow glass** (bottles & jars) and PET bottles, including gripper tubes (pneumatic gripper), vacuum heads and vacuum plates, coated belts, wheels & rollers for container inspection machines.
- **flexlam**[®] - laminating solutions (vacuum bags for automotive and architectural glass)
comprehensive solutions for the **glass laminating process** (automotive, architectural, safety) including reusable vacuum rubber bags, trolleys, vacuum pumps, & accessories.
- **flexcell**[®] - fuel & water cells
On-board fuel bladder tanks for various vehicles : motorsport, defence, marine, aircrafts, etc...
- **flexdrum**[®] - transport & storage tanks
Flexible rubber tanks for the transportation & storage of any kind of liquids (water, potable water, fuels, etc.).

ISO & quality standards

Simtech is dedicated to a total quality approach, and our Quality Management System is [ISO 9001:2008](#) certified. The electrical material we sell meets the “CE” marking’s harmonized European standards.

Simtech’s flexible tanks and fuel cells are manufactured according to international standards (DCSEA, FIA, MIL, UN).

Engineering Department

Simtech is also an engineering company capable of meeting your specific needs. We have CAD capabilities (Autocad, Catia,...) and work in close collaboration with specialized laboratories and research centres in Belgium and the rest of Europe.

Simtech values

To build up a team and drive it in the same direction, we need common values that create the company culture. Our values are:

1. Customer satisfaction
2. Rigour and professionalism
3. Team spirit
4. Result
5. Curiosity
6. Enthusiasm
7. Fun
