Complete range of service activities: customer local support, multilingual on-line spare-parts catalogs, tooling, repairs, refurbishment.

HISTOIRE DE L'ENTREPRISE

TIAMA – Global provider of On-line Process & Quality Controls

MSC and SGCC are two major players of the hollow glass inspection market with truly similar paths. Their first likeness is an almost half-century experience. Both companies started inside two famous glassmakers.

1963: MSC is created within BSN, as a small department, to invent on-line inspection solutions for its hollow glass production.

1973: SGCC starts its existence within Saint-Gobain glassmaker to perform multi- inspection on glass containers with the first star-wheel principle machine.

After developing their fields of expertise, SGCC and MSC became independent entities providing inspection equipment globally.

In **2008**, MSC and SGCC firms joined forces under the umbrella of TIAMA to offer complete inspection solutions, with its brand: TIAMA-msc & sgcc.

On the **1st of December 2015**, the company changes its company name to TIAMA. The new company name responds to a will for identity simplification and brand strengthening.

Company Profile of **TIAMA**
