PRODUITS OU MACHINES

All Nuova F.lli Dondi's products can be **modified according to the client's needs** or designed expressly in compliance with project specifications.

The decision to **extend the product range** has lead to a substantial diversification of the company's activities, which nowadays concentrate on the production of industrial brushes with innovative and patented products as well as professional products for private and public hygiene.

EXXIT SYSTEM is an entire range dedicated to public and private hygiene. It includes professional brooms, small brooms for indoor and outdoor use, shovels, dustpans, trolleys, etc. whose main feature is their **ergonomics**, since we care a lot about our customers' health. While we were designing EXXIT SYSTEM, our attention was focused on the quality and durability of the materials used, on the **interchangeability** and the **lightness** of the different components, and on the ergonomics of the tool in order to encourage good posture for the user.

All our products are made in Italy.
