## PRODUITS OU MACHINES

### Conservatory Solar Control Glass Units

The Reflex range of conservatory solar control glass can be used in the roof (blue tint) and side frames (clear) to reduce the temperature in the summer by up to 15° C of a south facing conservatory.

Reflex is a new kind of conservatory glass designed to enable you to use your conservatory all year round in both summer and winter. We are UK based manufacturers of this unique conservatory solar control glass system and switchable Smart-Tint™ LCD privacy glass.

Reflex Glass is a trading name of Roof-Maker Ltd which manufactures high performance double and triple glazed units for supply only. Operating from our modern 20,000 square foot factory in Leicester you can buy direct from us making large savings dealing with us as the manufacturer. We deliver throughout the UK on a fleet of branded vehicles and deliver direct to site on a fast turnaround. Our Reflex product range has an invisible metallic coating inside the glass and reflects up to 95% of the sun's infrared heat and damaging UV radiation, resulting in temperatures being cooler in the summer months.

Our hi-tech units are supplied with a 20 year unit seal warranty which sets our glass apart from other conservatory glass products on the market.

### Company Profile of **Roof Maker Ltd.**
