Adresse	Nihon Yamamura Glass Co., Ltd. New Glass Company Headquarter 15-1, Nishimukojima-cho, Amagasaki Hyogo 660-8580
Pays	Japon

PRODUITS OU MACHINES

As the glass bottle company with the largest market share in Japan, we respond quickly and precisely to a wide range of needs. We have an extremely flexible production system, technical development expertise accumulated over the many years since the company's founding, and a wide selection of more than 1200 kinds of products. As a leading company, we are contributing to global environmental conservation through activities such as development of environment-friendly products.

Nihon Yamamura's I.S. machine is a state-of-the-art glass bottle forming machine that has unsurpassed production capability. The foundations on which this capability was developed are precision machinery manufacturing technology and Nihon Yamamura's glass bottle manufacturing experience, based on the accumulation of advanced production expertise over many years. The I.S. machine was built from the user's standpoint and has the following key features:

Improvement of product yield

- Shortening of Job change time
- Long durability
- Wide range of manufacturing capability
- Safe, easy operation

A high level of quality suited to glass bottles
Japan's largest 4-point stick pre-tack labels

Heat-sensitive pre-tack labels make use of the transparency of glass bottles to ensure that products appear vibrant and clear. Transparent film allows for the same sense of impact as directly printed glass, but at a lower cost. Pre-tack labels also offer excellent hot and cold water resistance, eliminating worries of labels peeling off unexpectedly.

ACL (Direct Printing)

Direct printing creates high-end style
Excellent for returnable bottles

Screen printing bottles adds a strong sense of authenticity and luxury to a product. In the past, ACL printing techniques were common for milk and other returnable beverage bottles. In recent years, however, ACL printing has also increased for alcoholic beverage and other one-way bottles

Company Profile of **Nihon Yamamura Glass Co., Ltd.**
