PRODUITS OU MACHINES

Bottle Works

We have developed our business into a specialty printing shop because we love a challenge. We specialize in bottle and container printing, while offering traditional textile printing for our clients. We can print multiple colors on cylindrical, oval and square containers. Suitable substrates include polyethylene, poly propylene, glass, ceramic and metal. We print using enamel inks and add catalysts when required. Mission Screen Printing has four semi-automatic screen printing machines capable of printing multi-color images on bottles and are excellent for printing on items such as round cosmetic containers, or glass bottles.

Glassware

We can apply your bar's logo to glassware such as pint glasses or growlers which you can offer for sale to your patrons or give away as promotional items. Our promotional glassware is great for any type of business or festive event. If you want high quality custom pint glasses & growlers to be used as promotional items, look no further. Think of the advertising potential your company would receive with our fine quality promotional glassware. Have your own glassware you would like printed, send us a sample and we can tool our presses to fit or take a look at the selection of glass ware offered by our suppliers.

We print jobs for smaller clients as well as large. Personalized pint glasses can be the perfect addition to anyone's man-cave, or the perfect memento of your bachelor party. We make custom printed glassware reliable and fast.
