## PRODUITS OU MACHINES

With locations across North America, Strategic Materials is strategically positioned to provide manufacturers and suppliers a single point of contact for their recycled glass and plastic needs.

At Strategic Materials, we understand that quality is critical on both ends of our process. We were the first in our industry to implement an inbound and outbound continuous measurement system to ensure a quality product.

### Innovative processes support manufacturing demands

We regularly supply recycled glass to manufacturers of containers, fiberglass, highway beads, glass abrasives, decorative glass, glass fillers, and other specialty glass. We are able to meet the diverse demands and high standards of each of these industries because of our innovative processes, deep knowledge base and a culture that is focused on continuous improvement.

Our relationship with our customers doesn't stop with the shipment. We regularly work with our customers in the technical development of their products. We want to help develop the use of recycled glass for a wide variety of products. It's good for the environment and good for business.

### Advanced technology converts wide range of glass supply

Strategic Materials accepts a variety of glass types: bottle, plate, automotive, colored, pharmaceutical, soda lime, and borosilicate. If you have glass, chances are Strategic Materials has the capability to process it and turn it into viable products.

- Bottle in cases
- Gaylords
- Bulk and single stream requiring color sorting
- Plate in bulk
- IG units
- Windshields

We may be large but we are flexible enough to handle different incoming streams from our suppliers. We can also work with you to arrange freight in van, dump or roll off. In fact, we provide roll off containers to hundreds of sites across the US so that our suppliers can easily recycle their scrap glass. These sites range from large industrial manufacturers to fabrication sites to bar and restaurants.
