PRODUITS OU MACHINES

The portfolio of GAW technologies includes plant construction, products and industrial services, and serves five essential markets in almost every region of the world: glass fiber and glass wool, paper, water, chemicals and automation.

Digitalization, Automation and Plant Optimization: DCS, SCADA, SPS, MES and EMS
Batch Plant
Sizing Preparation and Application
Binder Preparation
Coating Preparation
Recycling Plant
Water and Wastewater Treatment Solutions: Membrane Separation and Water Treatment Plants, Microfiltration, Ultrafiltration, Nanofiltration, Reverse Osmosis and Electro Dialysis

HISTOIRE DE L'ENTREPRISE

GAW technologies, a member of the GAW Group, is a guarantor of technological competence in international industrial plant engineering and construction.

With more than 70 years of experience, we are the experts for the industrial preparation and production of chemicals and coating compounds, water and wastewater treatment solutions and the automation and digitization of industrial processes.

Following the special needs of our customers, we design and implement process solutions that range from development, consulting, engineering, manufacturing and construction, to logistics, supervision and commissioning, to training and after-sales service. Following the special needs of our customers, we design process solutions that range from development, consulting and engineering, to logistics, supervision and commissioning, to training and after-sales service.

Within the GAW Group more than 580 highly qualified engineers and specialists around the globe form the basis of our success.
