PRODUITS OU MACHINES

Flat Glass Tempering Furnace

Flat Glass Tempering Furnace is mainly used to produce top-grade flat tempered glass for furniture, household appliance.

Main technical features

- Special spire screwy matrix heating method and professional oven-temperature intelligent control ensure the equilibrium and high speed for glass heating.
- Top quality insulating material, special heat-preservation layer arrangement process and reasonable process technology guarantee the lowest energy consumption.
- Powerful control software ensures high automation, comfortable man-machine interface and easy operation.

HISTOIRE DE L'ENTREPRISE

Established in the year 2009, **Amcet Sanli Engineering Company** has attained a top reputation in the market for manufacturing, supplying, importing and exporting a range of Conveyors and Heating Ovens.

Our range of products include includes Industrial Furnaces, Industrial Lehrs and Food Drying and Baking Conveyors, among a host of others. Our products are in high demand because of their attributes such as durability, spanking design and corrosion resistance. For over half a decade, we have earned the trust of our wide base of clientele since we use only Grade A raw material and high-tech imported machinery to fabricate our respected Product Line.

Moreover, we customise our products to satisfy varying needs of our esteemed clients, who are spread across Africa, South East Asia, Bangladesh and Sri Lanka.
