PRODUCTS OR MACHINERY

Market Evaluation for glass industry projects (greenfield / brownfield) in float glass, solar glass and container glass industry.

Feasibility studies, Pre-feasibility studies, Benchmark, Bankable Business plans
Analyze & Benchmark

We help you analyzing and benchmarking your glass production and run projects to reduce costs (with energy costs in particular), minimize CO2 and NOx emissions (with additional returns through emission trading schemes), increase efficiencies, enhance glass quality and optimize productivity.

Improve

Additionally we support you to improve competitiveness, diversify production e.g. towards Photovoltaic glass plus buy and sell glass.

Expert Team

»glasssglobal Group« is a team of professionals with technical, commercial and marketing expertise within glass and works in close cooperation with competent partners.

COMPANY BACKGROUND / HISTORY

Glassgobal Unipessoal Lda. is the technical branch of glasssglobal Group (OGIS GmbH), headquartered in Düsseldorf. To provide you with a technically sophisticated service, we include engineers of glass technology, business experts and programmers in our team. Main topics of the company are the contribution and generation of information for the global glass industry and its suppliers.

Our Network is completed by glassglobal.com featuring a comprehensive company database, Trade Market, Job Market, Consultancy as well as Technical Glass Calculations and Calculations about thermal behaviour. You can rely on our long international experience in sales and technique as well as on our glass specialists.
